### From The Doctors Company: *Analysis of Cerebrovascular Accidents and Malpractice Claims*

---

Because a cerebrovascular accident can happen in any healthcare setting, it is imperative that all healthcare providers and staff can spot the signs and symptoms promptly. Timely diagnosis and treatment can minimize injury severity and improve patient outcomes.

Looking to avoid risk?

## WE CAN SHOW YOU THE WAY.

We're taking the mal out of malpractice insurance. Thanks to our national scope, regional experts, and data-driven insights, we're uniquely positioned to spot trends early. We shine a light on risks that others can't see, letting you focus on caring for patients instead of defending your practice. It's a stronger vision that creates malpractice insurance without the mal. Join us at [thedoctors.com](http://thedoctors.com)
